

My name is \_\_\_\_\_ and I live at \_\_\_\_\_  
and I vote. I am writing as a Jewish American and as a member of Temple Beth Zion-Beth Israel. I am writing to **demand that you expedite the family petition and Lautenberg Amendment processes** so that fleeing Ukrainians can be helped NOW. Humanitarian legal processes meant to help those who are endangered - but take years and years to resolve - are NOT responsive to humanitarian needs. They are inconsistent with the intentions behind our refugee and asylum laws. The United states' on-going failure to stream-line processing and appropriately staff processing centers is resulting in the DAILY loss of human lives. Existing immigration policies also fails to recognize the growing urgent need that the United States has for newcomers given our population decline, mortality increases. Newcomers may help stop the staffing crisis that we are currently experiencing, revitalize our declining communities and re-invigorate the middle class.  
Sincerely,
